LUXURY KITCHENS

Our luxury kitchens are customized and every kitchen is unique. Materials, colors, kitchen tops, storage systems, kitchen appliances are customized for every project.

We work directly with European manufactories, our team design your kitchen, import and install.

Our countertops made from the best natural stones as: onyx, natural quartzite, marble, agate marble.

All kitchen appliances are built in: downdraft cooker hood, stove, oven, microwave, fridge, freezer, sink and coffee/tea station.

We import the best European and American brands with the latest technology. Some of the top brands include Miele, Liebherr, Siemens, Smeg, Bosh, Zline, Forno, KitchenAid, GE.

LUXURY BATHROOMS

Our team is driven by a passion for superior quality, innovative design, and meticulous attention to detail. We combining contemporary palettes, textures, and forms to create exclusive, one-of-a-kind collections.

We work with all type of stones and tiles: onyx, marble, travertine, sintered stone, agate, porcelain tiles and ceramic tiles.

Large format onyx slabs are the ultimate luxurious addition to your home, bringing decadence and light wherever you use them. With the beautiful color-ways in our selection, it is easy to see why this stone enjoys such popularity.

In all projects we install modern in-wall shower systems and in-wall toilet systems making the bathroom looks more spacious and elegant.

Every product is designed in-house and manufactured overseas using premium materials sourced from Europe. This commitment to excellence ensures each piece reflects timeless design, artisanal craftsmanship, and unparalleled quality.

LUXURY CLOSETS

HOMES PUNTA CANA

Modern walk in closets are closer to a more minimalist design idea, which includes fewer furnishing accessories and more space to move freely around the room.

This style of furniture is appreciated by those who have an affinity for natural materials and their interesting textures. Here is an inspiration for your modern luxury walk in closet ideas: consider the joint use of glass and wood, a collaboration of leather that conveys a sober and essential elegance.

MATERIALS

Wood flooring

The modern design of our floors is influenced by the latest trends from art, design, decoration style, and lifestyle.

Our wood flooring obtained FSC certification and our floors are low-emission and eco-friendly.

We use different type of wood, sizes and shapes.

Type of wood: European oak, walnut, and exotic type of wood

Shapes: wide planks, herringbone, chevron, leafs.

Premium wood flooring that combines natural beauty, durability, and style to elevate your home with timeless elegance.

MATERIALS

Windows

In all our projects we install European double-glaze windows and doors. Double-glaze windows offer stellar energy efficiency, better soundproofing, and increased interior comfort.

Our windows obtained EU certificate and 10 year warranty.
